Message from the Guest Editors

Dear Colleagues,

This Special Issue proposal aims to investigate how local governments and societies have reacted or are reacting to a critical situation, such as an economic or health crisis, by integrating multidisciplinary approaches to analyze the vulnerability and resilience of both urban and rural contexts and by highlighting redevelopment opportunities and weaknesses. All papers that provide research results, experiences, and applications on these topics are welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
