Message from the Guest Editors

Nowadays, strong tourist pressure is seriously threatening the attractiveness of many destinations, often causing, in addition, negative reactions from residents. In the most visited destinations, mass tourism and overtourism frequently create conditions of unsustainability. These can be analysed in terms of their impact: environmental, social, cultural, economic and political. Many of these destinations are today trying to limit the impact of tourism on their resources and on the quality of life of the residents. The objective of this Special Issue is to locate and analyse experiences successful in dealing with the phenomena mentioned above, in order to advance possible management solutions and patterns to face these problems effectively. The aim is to find a reasonable balance between the needs and the expectations of the tourists and the long-term sustainable development of different types of destinations, especially cities and protected natural areas.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
