### Message from the Collection Editor

This Special Issue of the journal *Sustainability* is related to the analysis of transport poverty and inequalities to deepen into the social side of sustainability. The papers to be included in this issue should reflect questions related to transport inequalities and transport poverty highlighting the relationship among transport provision, social exclusion and transport disadvantages. We welcome contributions discussing how transport disadvantage impacts, to a greater extent, particular groups that include the elderly, people with health problems, low-income groups, those living in conditions of poverty, the unemployed or disabled people. Proposed papers may show that transportation inequity also has economic consequences, since there can be individuals that spend an excessive amount of time or money travelling. This way, transport inequalities can result in different environmental impacts by gender, age or income level. At the same time, inadequate public transport facilities may hinder access for individuals to work, education, health care services and sociocultural activities.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
