

## Transportation Planning, Mobility Habits and Sustainable Development in the Era of COVID-19 Pandemic

Guest Editors:

**Prof. Dr. Armando Carteni**

Department of Engineering,  
University of Campania, via  
Roma 29, 81031 Aversa, CE, Italy

**Dr. Ilaria Henke**

Department of Civil, Architectural  
and Environmental Engineering,  
University of Naples Federico II,  
Via Claudio, 21, 80125 ,Napoli  
(NA), Italy

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

The topics covered in the Special Issue may include but are not limited to:

- mobility habits incidence in the spread of the virus
- transport system impacts caused by the COVID-19 and the pandemic restrictions (e.g., behavioral and mobility habits variation, modal share modification, environmental and pollutant impacts)
- methods and models for predicting pandemic impacts on transportation system and travel demand
- sustainable mobility, sharing transport services and micro mobility during and after the coronavirus crisis
- resilience of the transportation system and transport services during the COVID-19 pandemic
- social and economic equity impacts caused by the Coronavirus measures (e.g., mobility restrictions)
- freight transport role and impacts during and after the pandemic
- procurement and distribution of medical and healthcare materials
- supply-chain management of medical, healthcare, and food goods
- planning, policies, projects, best practices and solutions to improve the transportation system, encouraging the urban regeneration and the sustainable development during and after COVID-19

University, Columbus, OH 43210,  
USA

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
