In this Special Issue, we aim to publish high-quality research articles on topics related, but not limited to:

- Challenges and opportunities in the analysis of travel behaviour in the era of new data sources
- Conceptual pieces on the assessment of environmental, social, and economic implications as a result of travel behaviour
- Empirical work on the interrelation between travel behaviour and environmental, social, and economic impacts
- Future scenario analysis considering the potential uptake of cleaner vehicles or travel services (or both)
- Approaches for the integrated assessment of travel behaviour, emissions, air quality, and energy consumption

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
