Message from the Guest Editors

Dear Colleagues,

The overlying title of the conference is “Cities as Social-Ecological Systems”. The Special Issue focuses on the ecological dimension of urban development in the view of sustainability. Among the particular objectives, the role of nature-based processes for humans’ life quality should be emphasized. Respecting the importance of ecosystems as structural elements of urban fabric is of high relevance. We highly welcome papers reflecting the values that humans apply to the green infrastructure in urban areas. We hope that the papers selected for this Special Issue will create an impactful set of publications linking the natural and social aspects of urban areas considered in light of sustainability.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
