### Message from the Guest Editors

Dear Colleagues,

SDG 11 mainly deals with sustainable urban development and is crucial for a rapidly growing urban population. A general trend of people moving from rural areas to cities has been observed in many parts of the world. This fast-paced urbanization brings many challenges pertaining to its sustainability. These challenges may include the availability of civic services (education, health care, housing, recreation, and transportation), law enforcement for crime prevention/monitoring, and unplanned/uncoordinated urban sprawl. Considering cross-sectoral interactions between different SDG targets, SDG 11 is explicitly linked with poverty (SDG 1), good health/well-being (SDG 3), clean water and sanitation (SDG 6), industry, innovation, and infrastructure (SDG 9), and reduced inequalities (SDG 10). This Special Issue seeks identification of the challenges faced by sustainable urban development using geospatial technologies. Implementation strategies for sustainable urban development will also be included in this Special Issue.

Dr. Abdul Raouf

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
