Deadline for manuscript
submissions:

13 September 2026

Message from the Guest Editors

We are pleased to invite you to contribute to a Special Issue of the *Journal of Sustainability* entitled "Sustainable Urban and Landscape Designs to Enhance Health and Wellbeing." As our global population ages and becomes increasingly urbanized, the influence of urban environments on human health and wellbeing has emerged as a critical area of research and practice. Sustainable urban and landscape design offers promising solutions to these complex challenges, creating healthier, more livable cities while minimizing their environmental impact and promoting social equity.

This Special Issue aims to explore innovative approaches, best practices, and emerging trends in sustainable urban and landscape design that promote health and wellbeing. We seek to collect interdisciplinary perspectives from urban planning, landscape architecture, public health, environmental science, and related fields to address the multifaceted nature of this topic. By fostering a dialogue between researchers, practitioners, and policymakers, we hope to advance our understanding of how urban environments can be designed and adapted to support human development in harmony with ecological and social systems.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
