

Wastewater Based Microbial Biorefinery for Bioenergy Production

Guest Editor:

Dr. Shashi Kant Bhatia

Department of Biological
Engineering, Konkuk University,
Seoul, Republic of Korea

Deadline for manuscript
submissions:

closed (15 June 2021)

Message from the Guest Editor

This topic will include a series of research and review articles covering but not limited to the following issues:

Analysis of wastewaters and utilization as a feedstock for microbial fermentation and energy production.

Wastewater treatment process integration with other energy production technology.

Microalgae-based nutrient recovery from wastewater and bioenergy production.

Bioenergy production from recovered microbial biomass after wastewater treatment using dark fermentation, fermentation, and microbial fuel cell (MFC) technology.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
