This Special Issue of *Sustainability*, titled “Addiction Research for Sustainability in Public Health”, aims to provide deeper insight into the problem of addiction in the context of actual public health situations around the world, with special emphasis on possible public health interventions that can be launched to mitigate the negative effect of the current pandemic on this important issue. Additionally, the proposed Special Issue seeks to explore innovative approaches in health care systems around the world directed towards prevention, treatment, and rehabilitation of various addictive behaviors in different populations. We believe that above mentioned Special Issue of *Sustainability* will be an excellent platform for strengthening global public health efforts, as well as an increase of sustainability and resistance of public health systems to successfully combat the problem of addiction in the modern world. We look forward receiving your valuable contributions.
