### Message from the Guest Editors

For this Special Issue, we welcome conceptual and empirical studies that analyze actions:

- To reduce losses of products and byproducts at the farm level;
- To promote sustainable agriculture;
- To provide insights into the relationships between consumers and household food waste behaviors;
- To evaluate the market potential of food obtained from byproducts;
- To promote the reuse of waste and byproducts to increase the nutritional value of food;
- To underline causes of food waste and its correlation with climate change, agriculture, and population growth.

The papers must show originality and make a significant contribution to the scope of the Special Issue.
