Message from the Guest Editors

This Special Issue is devoted to the latest developments in the field of green air cleaning technologies, both internal and external, biogas production and second- and third-generation biofuels, and air quality control systems before and after the purification process. The contributions should be related to the listed topics. Scope of the thematic issue:

- Biogas upgrading;
- Green deodorization methods (biofiltration, absorption, membrane separation, catalytic oxidation);
- Ionic liquids in air treatment;
- Second- and third-generation biofuels;
- Low-cost air pollution monitoring systems;
- Air pollution control systems;
- Air quality management;
- Modeling and evaluation of air pollution;
- Indoor air quality and IAQ monitoring;
- Pollution prevention and environmental regulation;
- Emissions reduction methods, policies, and trends;
- Assessment of human exposure to air pollution (methods, measurements, models).
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access**: free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility**: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication**: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
