Message from the Guest Editors

Dear Colleagues,

For decades, applied practices and technologies in animal husbandry were aimed to increase productivity with no or minor concerns of the effects of this drive, either locally or globally. However, with time, various issues of such production practices have been detected, and a need for solutions has emerged. Sustainable animal husbandry balances between the growing demand for animal-derived products and the need to reduce negative side-effects. In order to preserve ecological processes, biodiversity, and productivity into the future, sustainable animal husbandry integrates environmental, social, and economic aspects of food production. Principles of sustainability in animal husbandry can be applied through the entire process of production (i.e., from farm to table).

This Special Issue will offer findings that address the challenge of sustainable food management in animal husbandry. Manuscripts describing new approaches, new syntheses, and new theories are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
