### Message from the Guest Editors

This Special Issue aims to collect papers on indoor comfort and health. Both reviews and application-specific research papers are welcome. Review papers should present comprehensive reference information and the state-of-the-art in the subjects considered. Information on new building service components or lightening devices available on the market and/or recently developed in the literature would be welcome.

- Indoor environmental quality
- Sustainable architecture
- Indoor thermal comfort
- Acoustic comfort
- Visual comfort
- Air quality
- Building performance
- Energy savings
