

## Building Carbon Emissions and Their Impact on the Climate Change

Guest Editor:

**Prof. Dr. Ali Bahadori-Jahromi**

School of Computing and  
Engineering, University of West  
London, London W5 5RF, UK

Deadline for manuscript  
submissions:

**closed (30 November 2023)**

### Message from the Guest Editor

This Special Issue focuses on the following:

- Assessing the carbon emissions and energy consumption in buildings under current and future climate projections;
- Identifying cost-optimal design solutions to reduce the overall building emissions and conserving energy;
- Achieving a nearly zero-energy building (NZEB) standard;
- Reviewing the current practices for designing NZEBs;
- Achieving the desired outcome by developing a framework to seek out the energy efficient measures (EEMs);
- Presenting the ideal life cycle costs (LCCs).

The expected results of this Special Issue will encompass multiple industries, enabling them to calculate the operational carbon emissions and energy use of their building, perform a cost analysis, help reduce the carbon footprint and assist them in reaching the global target of net-zero by 2050 as put forward by The Intergovernmental Panel on Climate Change (IPCC).

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
