Message from the Guest Editors

This Special Issue welcomes theoretical and empirical contributions that aim to provide deeper insight in all aspects of culture and sustainable development in cities, e.g., inclusiveness, reduced inequalities, green growth/tourism and health and wellbeing. Empirical analyses showing the relationship between the Cultural and Creative Cities' performance and sustainability goals/green indicators will be particularly appreciated. Applications of the Cultural and Creative Cities model to other geographical contexts or units are also welcome. Theoretical contributions with a sound conceptual basis on the future scope of the Monitor, with a focus on cultural sustainability metrics, are of interest as well.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
