Message from the Guest Editors

This Special Issue aims to promote conservation practices in the cultural landscape in a changing climate through an integrated interdisciplinary and multi-sectorial approach, in order to improve of the decisional process. Potential areas of focus may include, but are not limited to, the following, within the context of climate change and the cultural landscape: the interaction between cultural heritage and ordinary planning; increasing the preparedness level of heritage institutions for climate change; methods of assessing the value of the cultural landscape based on community perspectives; best practices for vulnerability assessment and adaptation to climate change in the cultural landscape; assessment of climate change adaptation costs in the cultural landscape; methodologies for the integration of various skills and development of a Decision Support System.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
