### Message from the Guest Editors

Human society is currently dealing with a triple shock—COVID-19, climate change, and economic crises. The impact of COVID-19 will likely have severe effects on post-epidemic government policies.

Many unknowns remain on the possible evolution of the climatic phenomenon: How will the pandemic itself affect the speed and intensity of climate change? How would the policy changes developed in response to the pandemic affect climate change and how these policies would impinge upon the capacity of countries to adapt to new climatic conditions? How would the economic and social crises brought about by the pandemic and its government responses in combination with climatic deterioration be likely to affect poverty and income distribution over the next decade or so? What is the likely effect on women of this triple combination of shocks?

We thus invite you to contribute to developing research themes in these and related areas, providing rigorous evidence of the interdependences between the components of the triple shock and the likely impacts of them over the medium and long run.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
