Message from the Guest Editor

Tourism is a major activity in the global economy, not only because of its economic impact but also because of its social and environmental implications. The management practices and processes adopted by tourist companies and destinations are very heterogeneous and have variable impacts on the sustainability of the ecosystem in its triple aspect. This Special Issue aims to stimulate studies of the interrelationships between competitiveness and sustainability in tourism that help identify the best practices for their convergence. The aim of this Special Issue is to include papers that present new ideas, theories, advancements, experiences, evidences or methodologies that support the convergence of economic, social and environmental competitiveness, the factors that help to its alignment and the resistances that can break their complementarity. We welcome research papers and case studies with a focus on a broad range of thematic topics addressing the principles and practices of sustainability, responsibility and competitiveness in tourism industry.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
