Advances in Construction Performance Prediction Techniques: Perspectives for Sustainability

Guest Editors:

Prof. Dr. Sangwon Han
Department of Architectural Engineering, University of Seoul, Seoul 02504, Korea

Dr. Woon Seong Jeong
Department of Architectural Engineering, Chungbuk National University, Cheongju 28644, Republic of Korea

Deadline for manuscript submissions:
closed (30 November 2022)

Message from the Guest Editors

This Special Issue is to solicit original theoretical, methodological, and empirical research papers associated with advances in construction performance prediction techniques. Topics of interest include, but are not limited to, the following:

- Simulation
- Statistical techniques
- Genetic algorithms
- Artificial neural network
- Expert system
- Case-based reasoning
- Artificial intelligence
- Virtual reality/augmented reality
- Smart construction
- Big data

Special Issue

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
