### Message from the Guest Editors

This Special Issue aims to collect outstanding original research and case study papers on the use and implications of industrialized and automated construction for sustainability on various levels, e.g., projects, businesses, industries, and societies. We hope that such a collection of research outputs will contribute to enhancing our understanding of state-of-the-art methods and practices for sustainable construction in communities of construction researchers and practitioners.

Deadline for manuscript  
submissions:

**31 December 2021**

an Open Access Journal by MDPI

## Editor-in-Chief

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
