Deadline for manuscript  
submissions:

**closed (31 December 2020)**

### Message from the Guest Editor

Sustainability, in its current conceptualization, has evolved for several decades along the perspective of sustainable development. However, governance is, in reality, a precursor that drives sustainability. It is the foundational underpinning of sustainability that determines its manifestation and contextualization.

There is a pressing need for better scholarly expositions on the convergence of sustainability and corporate governance. This will have to go beyond existing practices and serve to guide new conceptual understandings and application modalities.

This Special Issue seeks scholarly papers that integrate sustainability with corporate governance in the setting of strategic management. This Special Issue seeks scholarly papers that integrate sustainability with corporate governance in the setting of strategic management. It welcomes multifaceted approaches to the theme, including conceptual, empirical and case studies. These can deal with a variety of settings such as for-profit companies including family businesses, nonprofit organizations including charities, and public sector agencies including governments.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
