Message from the Guest Editors

Dear Colleagues,

The strategic role of enterprise architecture (EA) in modern firms has gained considerable interest in recent years within the information systems and management community. The literature conceives EA as a blueprint of firms in the business ecosystem that documents the current and desirable future states of firms' strategic goals, their collaborative efforts, business processes, and associated IT landscape.

For this Special Issue, we welcome a wide variety of original and high-quality EA papers, including both conceptual and empirically validated work (see our topic list). We explicitly seek papers that are original and innovative and that substantially extend existing EA work and concepts. Attractive papers are those that push the frontiers of the EA domain, drive best practices and further thinking in this domain, and advance our understanding of EA in the age of digital transformation.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
