Laboratory of NT and Distance Learning, School of Education, University of Ioannina, 451 10 Ioannina, Greece

Deadline for manuscript submissions:

closed (31 December 2022)

Message from the Guest Editors

Finding the answer to a number of questions is the challenge for today. How can the potential of digital technologies affecting the economic subjects be explored? What methodological approach needs to be applied in order to explore the potential of the digital economy? What do the digital products have in common? What is their value? How is business productivity and performance changing? How are countries' GDPs changing as a result of digital transformation and the mass use of digital technologies? How to capture the impact of digital products, which are provided free of charge and which benefit people, in official measurements of indicators associated with the determination of the performance of national economies?

In order to address the present challenges and questions, we welcome studies, research results, and case studies as well as methodological papers that provide diverse approaches, experiences, and perspectives on the application of digital technologies and digital transformation processes in different geographical areas, sectors of the economy, and activities or processes.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
