Message from the Guest Editors

This Special Issue broadly examines the interface between disability, tourism, and sustainability. Within this context, we invite exploratory, empirical, or conceptual papers which contribute to discourse around the operationalization of the UNCRPD, the achievement of the UN Sustainable Development Goals (SDGs), and the UN World Tourism Organisation's (UNWTO) Global Code of Ethics for Tourism. Related themes include, but are not limited to: tourism as a vehicle for individual and collective fulfilment; (dis)embodied travel experiences; quality of life, health, and wellbeing; disability, diversity, and intersectionality; social and economic rationales for accessible tourism; accessible tourism policy, planning, and development; barriers and constraints to accessible tourism; accessible tourism education, training, and employment. Submissions focusing on all aspects of the tourism system such as transport; sport and recreation; events; hospitality; accommodation; attractions and activities; facilities, amenities, and ancillary services are welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
