Deadline for manuscript submissions:

**24 September 2024**

### Message from the Guest Editor

Dear colleagues,

The successful management of emergencies and public health crises depends on the adequate measures implemented in all levels of the emergency chain of action, from policy makers to the general population. It starts with appropriate risk assessment, prevention, and mitigation, and continues to prehospital and hospital care, recovery, and evaluation.

In addition to institutional responses, a robust, community-based disaster response system can effectively mitigate against and respond to all emergencies. A well-balanced response is largely dependent on local resources and regional responding agencies that all too often train and operate within “silos”, in the absence of interagency cooperation.

The main goal of this Issue is to bring together public health perspectives on the management of crises and develop the idea of multiagency management from a wider perspective.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
