Deadline for manuscript  
submissions:

**closed (20 October 2022)**

### Message from the Guest Editors

Dear Colleagues,

Energy is at the forefront of the global sustainable development agenda. The key challenges are expanding universal access to a clean, affordable, and reliable energy supply, which remains a fundamental policy goal for every country. Globally, there is widespread support for the adoption of low-carbon technologies and renewable energy resources, which is gradually moving the world towards a more sustainable ecosystem. These profound changes in the energy landscape and the transition from a traditional, rigid utility power grid towards a smart digital infrastructure are beginning to transform the way we generate, supply, and consume energy, and deliver and use energy services. Consequently, energy research is becoming increasingly interdisciplinary, involving socio-economic, environmental and technological factors that must be addressed holistically.

This Special Issue aims to disseminate the latest research in these interdisciplinary areas related to sustainable development and optimisation of energy systems...

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
