submissions:  
**closed (15 January 2024)**

### Message from the Guest Editors

Dear Colleagues,

Hydrogen can represent a key factor for the underlining transition toward clean technologies for more sustainable production and consumption. The ability of hydrogen to link different energy sectors and energy transportation and distribution networks can increase the operational flexibility of future low-carbon energy systems. Moreover, hydrogen as material can be used in industrial processes to enhance their sustainability, as in the steel industry, where hydrogen metallurgy, which adopts hydrogen as the reduction agent instead of carbon to reduce the iron oxides, has been receiving growing attention.

This multidisciplinary Special Issue welcomes original articles on hydrogen from a variety of research fields, covering the whole supply chain, from production to utilization, embracing technological, economic, and social dimensions.

Prof. Dr. Antonella Meneghetti

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
