Geology, University of Peshawar,  
Peshawar 25130, Pakistan

Deadline for manuscript  
submissions:

**closed (31 July 2023)**

### Message from the Guest Editor

The occurrence, pathways, sources and potential risks of pollutants in the environment remain largely unknown, and research into developing an understanding regarding this subject is of utmost importance, with a scarcity of information in regards to the monitoring, transport, and accumulation of heavy metals in the environment. Special attention should be paid to pollutants in water, soil, air, dust, plants and food, given that they may threaten human health. We invite research and review papers regarding, but not limited to, the following research areas:

- Detection methods for pollutants in drinking water, soil, air, dust, plants and food;
- Statistical/mathematical modeling for the health and ecological effects of heavy metals;
- Health and ecological risk assessments of water, soil, air, dust, plants and food contaminated with pollutants;
- Remediation strategies for these pollutants from water, soil, air, dust, etc.;
- Transportation, pathways and sources of pollutants in water, soil, air, dust, plants and food.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
