Message from the Guest Editors

In this Special Issue, we call for papers on practical examples, case studies, and utilization and application of technologies toward environmentally sound waste management and zero waste principles. We especially welcome papers that aim to solve waste management problems based on unique approaches fully considering regional characteristics, such as:

New technologies for environmentally sound waste management, treatment, and disposal;

Case studies to develop a sustainable society introducing unique waste management approaches;

Assessment of environmental impact induced by the effort of sound waste management and zero waste principles;

Review on environmental sound waste management and zero waste principles considering regional characteristics.
