Deadline for manuscript
submissions:

30 September 2021

Message from the Guest Editors

The expected proposals should provide an innovative scope of the literature dedicated to urban resilience. Editors expect research that questions the co-construction processes necessary for the success of a resilient project.

Papers in the field of risks, urban planning, urban engineering, geography, and architecture are expected. The Editors would like to see work that links the various research elements for action in urban communities, irrespective of whether at the scale of watersheds, cities, neighborhoods, or buildings. How to build viable and resilient neighborhoods? What are the ingredients for successful projects? What co-construction processes are necessary for success, and what are the obstacles and solutions?

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
