Message from the Guest Editors

Dear Colleagues,

Forests in the 21st century are facing new challenges, but also new opportunities, with growing global demand for wood products and recognition of the role of forests in addressing climate change. Society **benefits from forest welfare effects and makes corresponding demands on the conservation and management of the forests**. The forest product sector also generates considerable benefits in terms of income and job creation. With the change of people's lifestyle, urban forests are gaining more importance as a means for supporting human wellbeing.

1. Forest policy instrument implementation and evaluation;
2. The role of actors in forest policy;
3. International forest policy processes;
4. Urban forestry policy;
5. Urban forestry management for human wellbeing;
6. Innovations in forestry focusing on institutional and social aspects/ institutional or social aspects of innovations in forestry;
7. Novel forest management practices (PES, remote sensing, etc.);
8. Transforming forest management and policy practices in line with circular bioeconomy.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
