

## Advances in Functional Nanocomposites for Environmental Applications

Guest Editors:

**Dr. Timur Sh. Atabaev**

**Dr. Anara Molkenova**

**Dr. Kuanysh Zhussupbekov**

**Dr. Ainur Zhussupbekova**

Deadline for manuscript  
submissions:

**closed (25 February 2022)**

### Message from the Guest Editors

Dear Colleagues,

Environment protection for current and future generations is a pivotal task that requires enormous scientific effort. Impressive progress in the development of functional nanocomposites enables their utilization as selective and sensitive sensors for the detection of toxic ions and dangerous pollutants. Moreover, porous and/or functionalized nanocomposites can be used to resolve some water, air, and soil contamination issues. For example, these nanocomposites can act as effective absorbents, adsorbents, nanosensors, catalysts, and antimicrobial agents depending on their structure and physicochemical properties.

This Special Issue is focused on recent advances in the preparation of functional nanocomposites (organic, inorganic, or hybrid) suitable for environmental applications. We are warmly inviting you to submit your recent research findings focused on, but not limited to, the detection, removal, conversion and/or degradation of toxic ions and dangerous pollutants...

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
