Deadline for manuscript submissions:

closed (31 October 2021)

Message from the Guest Editors

This special issue is aimed at exploring innovative approaches in the Facilities Management (FM) sector towards the realisation of the sustainable development agenda. Facilities Management (FM) is currently shifting emphasis towards a long-term focus through the adoption of maintenance and operation practices that considers the social, environmental and economic benefits of all business decisions. The Facilities Management (FM) sector is engaging with sustainable development agenda as the whole built environment continuous to evolve.

Sustainable FM can be into building performance; sustainability tools and standards; user perception, satisfaction and productivity; sustainability management; construction and sustainable building materials; building design and sustainability; urban development; and benefit of green buildings.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
