### Message from the Guest Editor

“Reform is not a onetime action, it is a permanent attitude,” UN Secretary-General Antonio Guterres emphasized upon taking office in 2017. Reform is indeed a perpetual state for the United Nations because the problems it seeks to address evolve over time and require new approaches and actions. However, reform also requires learning from past achievements and challenges. As the state of the global environment deteriorates progressively, governments and citizens are questioning the effectiveness of global environmental policy and governance.

This Special Issue assesses the achievements and challenges in environmental governance globally and regionally, discusses the implementation of the reform efforts in environment and sustainable development to date, and offers a range of possible innovations in environmental policy and governance that would contribute to sustainability. It seeks to inform the reform initiatives in the United Nations and the debates within national governments and thus engages a number of scholars, policymakers, experts, and public opinion influencers from around the world.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
