Message from the Guest Editors

Dear Colleagues,

Global environmental change and related hazards are universal drivers and multipliers of risk that shapes dynamic interactions among livelihoods, multi-dimensional poverty and vulnerability; thereby have differential consequences. Therefore, the impacts on the most vulnerable and marginalized people of different geographies need to be evaluated, documented and reported for understanding the mechanisms for preparing and adapt to these changes. The linkages among ecosystem services; characteristics of social systems required for a means of living i.e. capabilities, skills, assets (resources, availability and accessibility); and institutional supports would facilitate and promote livelihood resilience in the face of global environmental change and related hazards.

The main goal of the Special Issue would be advancing the understanding about environmental management and governance for the sustainability of socio-ecological systems which are under the impacts of global environmental change and related hazards.

We look forward to receiving your contributions.

Dr. Rajiv Pandey

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
