Message from the Guest Editors

Dear Colleagues,

Energy poverty is one of the main social problems of the 21st century, and is due to the existence of a building stock with poor energy performance and low-income households. Although there is increasing awareness of this problem and measures are established, the Covid-19 pandemic has meant a change for society. Confinement, the increase in unemployment rates, and the disappearance of companies are aggravating the economic situation of families. Given this circumstance, it is necessary to establish measures to ensure a sustainable economic recovery of families and ensure an improvement in the energy performance of buildings. The objective of this Special Issue is to analyze the effects of the Covid-19 pandemic on energy poverty in families. Likewise, it is also the objective of the Special Issue to analyze measures to mitigate energy poverty in the face of this new situation.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
