Message from the Guest Editors

Industry 4.0 will have a large impact on different areas, leading to concepts such as Quality 4.0, Maintenance 4.0, Safety 4.0, Cybersecurity 4.0, Operator 4.0, and Logistics 4.0, as well as influences and connections with lean supply chain management.

For this Special Issue, authors are encouraged to consider how technological innovation, especially in the context of Industry 4.0, affects quality management and sustainability; what kind of new opportunities, risks, and problems may arise for managers and employees; the way the economy and industry will change, evolve and sustain; the need for new innovation, software and technology for quality management and sustainability; the trends in education and training that will arise; and what kinds of specialists will be in demand. We encourage contributions on the roles of Quality 4.0 and innovation in sustainable Industry 4.0, as well as those on the impact of Quality 4.0 and technological innovation on the smart sustainability of Industry 4.0.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
