submissions:

**closed (30 April 2019)**

### Message from the Guest Editors

The building of a more cohesive and respectful society towards cultural diversity is on the European horizon. In addition to the various European citizenship identities, other numerous cultures are present, which include immigrants and refugees. Intercultural Education must be a tool to promote the sustainable social and cultural development of our young people and children who are the citizens of tomorrow.

All of this requires the application of teaching methods which optimize the different dimensions of the educational process, aiming at the achievement of intercultural competences that contribute to the maintenance and well-being of people in a connected world and thus implying the professional development of the teachers.

Under such premises, in this Special Issue, bibliographic studies, well-based theoretical reflections, empirical research, socio-demographic studies, and intercultural educational practices are explored so as to support the need of a shared decision-making between cultures characterized by inclusive principles, modes, and practices that allow, within the present multicultural scenario, the development of Intercultural Education for Sustainability (IES).

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
