Deadline for manuscript
submissions:

30 November 2021

Message from the Guest Editor

In this Special Issue, the focus will be on environmental life cycle assessment of materials systems, which should consider all life cycle stages. The research papers should report the theoretical background, methodology, results, analysis and implications for applications of the outcomes to make a meaningful impact. At the end of the publication process, the guest editor of this Special Issue will provide a synthesis to distil the key messages from the presented works into practical guidance points on how best to use LCA in materials engineering and how best to utilize and aggregate divergent data and methods to improve LCA utility.

an Open Access Journal by MDPI

Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
