Message from the Guest Editors

Sustainability or/and green have become an important factor in supply chains and logistics. In recent years, technology development has impacted the supply chain structure of firms, leading to changes in how to achieve sustainability or green-related performance.

Keywords

- AI in supply chain and operations
- technology adoption
- industry 4.0
- big data and business analytics
- innovation in supply chains
- sustainable supply chains
- green supply chain

Deadline for manuscript
submissions:

31 December 2021

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
