Deadline for manuscript
submissions:

31 December 2022

Message from the Guest Editor

A health management service, mobile health, is becoming a reality in the context of mobile technology. However, it raises privacy concerns, and makes the analysis a black box. In order to solve these technical and social problems, this Special Issue will include but is not limited to:

- Conceptual propositions on technology and innovation for sustainability and social implementation of mHealth and Healthcare AI;
- Systematic reviews on technology and innovation for sustainability and social implementation of mHealth and Healthcare AI;
- Methodology for the analysis, design, and implementation of innovative technology, products/services, and systems for sustainability and social implementation of mHealth and Healthcare AI;
- Practices and case studies on technology and innovation management for sustainability and social implementation of mHealth and Healthcare AI.

We expect that this Special Issue will serve as a forum for anyone with an interest in and passion toward the realization of a sustainable society through technology and innovation.

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
