Deadline for manuscript submissions:

**closed (31 July 2023)**

### Message from the Guest Editors

It is our pleasure to present this Special Issue on “Port Governance”. What are the differences in port governance models between countries and continents? What are the best models in each case and what is their natural evolution? What variables influence port governance? The challenges are complex, and there are very important themes that should be developed by port researchers, such as port and city relations, port waste reception, sustainable port policy, climate change and ports, the relationship between port and terminal governance, the role of the port in the logistic chain governance, and the port governance models different countries. Other important issues to be analyzed include the role of ports in the expansion of the port community system and its governance, and the improvement of terminal performance or port innovation governance.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
