Deadline for manuscript  
submissions:

**31 October 2021**

### **Message from the Guest Editors**

Dear Colleagues,

The aim of this Special Issue is to collect studies focusing on the redefinition of product (service) lifecycle management for sustainable products and services considering the impact of methodologies, technologies, processes, systems, and people in fostering sustainable practices and operations within organizations and along the entire value chain. Embracing a large set of methodologies, technologies, processes, systems, and human resources, product lifecycle management could be able to support companies in sustainable products and services conceptualization, design, manufacturing, delivery, maintenance, and disposal in order to assure the integration of the three sustainability dimensions: economic, social, environmental.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
