Message from the Guest Editors

Dear Colleagues,

The current context, strongly characterized by the COVID-19 pandemic and by financial, economic and environmental emergencies, has further highlighted long-standing fragility: in particular, attention is focused on the need to relaunch the public role of institutions as a driving force and guarantee and guide in urban and territorial transformation processes.

The scientific community has highlighted the need for these challenges to be considered by decision makers in the field of real estate appraisal and project economic evaluation. More specifically, the question of interest is what the premises and the perspectives are for new approaches and evaluation methods. A real rethinking of approaches is necessary in light of the current situation, especially considering the urgent need for new tools that support investment planning and capital budgeting, specifically planning, evaluating, and controlling investments, which capture the complexity of contemporary interventions along their life cycle, and that support the subjects involved in decision-making processes.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
