Message from the Guest Editors

This special issue will present research papers that assess the efficiency and sustainability of local government with a focus on issues concerning mergers, outsourcing and various types of collaboration. Authors are encouraged to submit papers that examine local government policies regarding different forms of collaboration and upscaling, incorporating efficiency gains due to economies of scale. We are particularly interested in papers with a focus on sustainability of service delivery and finance. A strong quantitative and empirical component is required, preferably including analyses based on methodologies such as Stochastic Frontier analysis and Data Envelopment Analysis. From a policy perspective the papers must contain clear policy recommendations. All types of local government services may be included.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
