Message from the Guest Editors

Dear Colleagues,

The Special Issue is open for contributions that respond to the following questions:

- What are the effects of urban regeneration intervention on the city as a polycentric socio-spatial system?
- How does urban regeneration intervention support mitigation, resilience, and the antifragility of the city as a polycentric socio-spatial system?
- What are the steps of a regeneration process that allow departing from rundown or unused buildings and facilities?
- Which evaluation tools and decision support systems were used to implement urban regeneration intervention?
- Which evaluation tools and decision support systems were used to implement urban regeneration intervention?
- Does the policy support urban that departs from rundown and/or unused buildings and facilities? Which policy modifications are required for such an intervention?
- Which participatory models were used to implement the urban regeneration project?
