Message from the Guest Editors

The goal of this Special Issue is to showcase the highly complex field of regenerative scale jumping processes, in which a jump in scale beyond sustainable and net-zero buildings towards regenerative neighbourhoods, communities, cities, and districts is proposed. We invite authors with original research or review papers especially, but not exclusively, from the field of design, architecture, engineering, social science, educational science, cognitive science, ecological and economical science, or any other discipline involved in the built environment, to contribute to this comprehensive Special Issue.
