Message from the Guest Editors

Over the decades, the role of natural resources in sustainable economic growth and development has gained considerable attention among research scholars, regulators, and other stakeholders, as is reflected in the view that “Clear waters and green mountains are as good as mountains of gold and silver.”

It becomes imperative to find out the avenues for Sustainable Resource Utilizaion to determine the optimum possible benefits, considering the specific economics background of the respective region/economy/group.

The goal of this Special Issue may be accomplished by preferably empirical contributions, devoted to extending resource economics and sustainable development literature on various paradigms of the effective and efficient utilization of natural resources. With this in mind, we would be delighted to receive scholarly contributions to “Sustainable Resource Utilizaion in Global Economics Background: Outlook and Challenges”.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
