### Message from the Guest Editor

At the age of communication, social networking, branding by reviews, and hashtag influences, the risk of the social movement, neighborhood-driven work stops, and construction delay due to unaddressed social concerns is increasing. If proper risk identification and mitigation is not in practice, soon we will see the “neighborhood delays” as a modern risk factor to stay. This Special Issue welcomes **a) Neighborhood concerns:** Crime footprint, social carrying capacity footprint, public goods footprint. **b) General public concerns:** Migration footprint, class society footprint, heritage footprint. **c) Concerns on the current mechanisms:** CSR actions and effectiveness, NGOs’ actions and effectiveness, SDG relevant projects.
